

Sec. 24-30. - Establishment and application of zoning district regulations.

- (a) The uses permitted in the various zoning districts, and dimensional requirements are set forth herein. These regulations apply to the zoned areas only.
- (b) Section 24-31 (table 1) sets forth use and off-street parking requirements for each zoning district. Section 24-32 (table 2) sets forth lot area, yard, setback, height, and density requirements for each district. Section 24-33 prescribes regulations for development in the Flood Hazard District, and section 24-34 establishes regulations for the Airport Compatibility District and section 24-29(d)(3) for planned development. Sections 24-33 and 24-34 apply to the zoned and un-zoned areas alike.
- (c) The North American Industry Classification System, **2000 currently available addition**, is the basis for determining the use of property permitted by the various zoning districts. Where uncertainty exists relative to a given use not specifically listed by table 1, section 24-31, the NAICS manual should be consulted. In general, all uses listed by a given NAICS number and category should be construed as being permitted in the assigned zoning district, unless separately listed.
- (d) Uses not listed in the NAICS manual are identified by the letters "NA" (not applicable) in the NAICS column.
- (e) Where the letter "P" is shown, the use to which it refers is permitted as a use by right in the indicated district or column, provided it complies fully with all applicable development standards of this chapter.
- (f) Where the letter "C" is shown, the use to which it refers is conditionally permitted in the indicated district or column, subject to applicable requirements set out in sections 24-26 through 24-80.
- (g) Where the letter "N" is shown, the use to which it refers is not permitted in the indicated district.
- (h) Where a given use or NAICS reference is not listed by table 1, section 24-31, such use shall not be permitted.
- (i) A section number reference following a use category means the use must meet the additional conditions and requirements of the referenced section.
- (j) To aid in the use of table 1, section 24-31, it is arranged by NAICS sectors, followed by the uses and codes included in the respective sector:

Sector 11: Agriculture, Forestry, Fishing and Hunting.

Sector 21: Mining.
